Dear Peter —

It was very nice to see you again. You have an amazing memory and a talent for connecting dots. Thank you so much for the special, customized, limited edition, stamp set signed by you. It truly is the most unique gift that I've ever received and will have a lasting memorable impact.

Thank you also for your continuing support of our Sailors. It is from the unsung efforts of people like you that makes a world of difference in the port visits for us. What you do in support on the ground makes the U.S. Navy Team all that much more strong.

Thanks again and warmest regards  
Lil
